

**Coats:** Minimum 3 coats, additional coats can be applied

**Application:** Apply liberally with a foam brush or roller and lightly wipe the excess away with a clean cloth.

**Sanding:** On bare wood sand to 150 or 180. Can be wet sanded into the wood using 400-600 grit. Wipe off excess after sanding.

**Sealer:** General Finishes Seal A Cell Clear, oil base Pre-stain Natural Conditioner, or can be used as a self sealing finish on it's own on bare wood or stripped surfaces.

**WARNING: TEST FOR COMPATIBILITY WHEN USING THIS PRODUCT WITH PRODUCTS FROM OTHER BRANDS.** General Finishes products should be tested to your complete satisfaction before using. General Finishes will not be responsible for any failure if our products are used in conjunction with other brands of finishes. We do not test General Finishes products with those of another manufacturer and will not accept liability if there is a compatibility issue.
